

AtlasOps Excellent Deck

AtlasOps Excellent Pitch Deck

Sector: B2B SaaS / AI workflow automation. Stage: pre-seed. Geography: UK / Europe / Worldwide.

Problem: Mid-market operations teams spend 12 hours per week reconciling approvals, handoffs, and reporting across disconnected tools.

Solution: AtlasOps is an AI workflow automation platform that observes repeated operations workflows, recommends automations, and gives managers an audit trail.

Market: 41,000 UK and EU mid-market operations teams with an initial serviceable market above GBP 1.2bn.

Traction: GBP 18k MRR, 22 customers, GBP 9k ACV, 9% month-on-month MRR growth, 84% gross margin, 97% logo retention in the last quarter.

Business model: SaaS subscription priced per operations seat plus workflow volume tiers.

Team: Founder previously led operations systems at a public SaaS company; CTO built production ML workflow tooling; advisor sold to mid-market buyers.

Financials: GBP 180k cash, GBP 42k monthly burn, runway 4.3 months, raising GBP 750,000 pre-seed for 18 months runway.

Use of funds: 45% engineering, 35% sales/customer success, 10% AI infrastructure, 10% compliance and finance.

Risks: sales cycle length and model accuracy; mitigated through paid pilots and human approval loops.
